

The background image shows a complex industrial facility, likely a port or refinery, with large metal pipes, walkways, and structural elements. The scene is captured from an elevated perspective, showing the scale of the infrastructure. The lighting is bright, suggesting a sunny day, and the overall color palette is dominated by metallic grays and blues.

Tailor-made solutions for bulk material handling

Safe, efficient, sustainable, worldwide

Your challenge – our answer

In bulk material handling, safe storage, efficient discharge and explosion protection are crucial.

Our stainless steel silos stand for quality, durability and maximum reliability.

With Ziemann Holvrieka, you can rely on tailor-made, standard-compliant silo and plant solutions that meet the highest safety standards and optimize your processes.

Our services for the bulk material handling

Over

170

years of experience

More than

1,550

employees worldwide

128,000m²

of production area, including

25,000m²

indoor space

Production capacity
of up to

400

tanks/year

Product & manufacturing expertise

- Production of stainless steel silos, special-purpose vessels, storage tanks, and pressure vessels
- Up to Ø 7.5 m: one-piece factory production possible; beyond that: flexible on-site assembly
- Direct waterside loading

Engineering & technology

- In-house engineering with FEM-based design
- ATEX-compliant design, construction in accordance with Eurocode 3 and other international standards
- Optional equipment tailored to your requirements

Project execution & service

- Highest quality standards throughout the entire project lifecycle
- Short lead times and high delivery reliability
- Global service network

Features and benefits

One-stop project execution

Technical design, manufacturing and installation provided by a single point of contact.

Large-scale vessel technology

Large vessel volumes create economies of scale and cost-efficient production capacities.

Efficient process integration

Our tanks, vessels and silos, together with our experienced team, reduce complexity and streamline your operations.

Fast commissioning

One-piece delivery reduces on-site installation effort and enables quicker commissioning.

High-quality manufacturing

Ensures reliable processes, high plant availability and cost-efficient operation over the entire lifecycle.

Future viability

Produced sustainably and with efficient use of resources

The partner for the petrochemical industry

Ziemann Holvrieka is your partner for certified tank and plant solutions – from design and manufacturing to integration. With global project expertise and turnkey solutions, we ensure quality, compliance and efficiency.
